

Postal Rate Commission

§ 3001.67a

Postal Service shall serve copies of its formal request for a recommended decision and its prepared direct evidence upon such officer and the intervenors as provided in §3001.12. Service shall also be made on persons who are limited participants.

[38 FR 3511, Feb. 7, 1973, as amended at 51 FR 8827, Mar. 14, 1986; 58 FR 38977, July 21, 1993]

§ 3001.66 Failure to comply.

If the Postal Service fails to provide any information specified by this subpart, or otherwise required by the presiding officer or the Commission, the Commission, upon its own motion, or upon motion of any participant to the proceeding, may stay the proceeding until satisfactory compliance is achieved. The Commission will stay proceedings only if it finds that failure to supply adequate information interferes with the Commission's ability promptly to consider the request and to conduct its proceedings with expedition in accordance with the Act.

[38 FR 7536, Mar. 22, 1973, as amended at 51 FR 8827, Mar. 14, 1986]

§ 3001.67 Requests involving experimental changes.

(a) This section and §§3001.67a through 3001.67d apply in cases where the Postal Service requests a recommended decision pursuant to section 3623 of the Postal Reorganization Act and denominates the new service or change in an existing service as experimental in character. These sections do not apply to the situation in which a request not denominated as experimental by the Postal Service, either at the time of its filing or subsequently, is found to be justified by the Commission only on an experimental basis, following analysis of the record made in the proceedings on such a request.

(b) This section and §§3001.67a through 3001.67d are not intended to substitute for the rules generally governing requests for changes in the Domestic Mail Classification Schedule in cases where the treatment of the proposed changes as experimental is not justified by the character of those changes. The Commission reserves the right, in appropriate cases, to require that the normal procedures prescribed

for nonexperimental cases under section 3623 be used. In determining whether the procedures for experimental cases may be used in a particular case, the Commission will consider:

(1) The novelty of the proposed change;

(2) The magnitude of the proposed change, including its effect on postal costs, postal revenues, mailing costs and practices of users of the mails, and persons or firms offering services competitive with or alternative to the service offerings of the Postal Service;

(3) The ease or difficulty of generating or gathering data with respect to the proposed change; and

(4) The desired duration of the experiment as indicated by the Postal Service in its request and, specifically, in its proposed Domestic Mail Classification Schedule language.

(c) In the case of a proposal denominated as an experiment by the Postal Service, the Commission will entertain representations by parties to the case that the proposal should not be considered as an experiment and should follow the normal mail classification change procedures. The Commission does not contemplate entertaining representations by parties to a case filed under the normal procedures that the matter should be treated as an experiment under this section and §§3001.67a through 3001.67d.

[45 FR 83226, Dec. 18, 1980]

§ 3001.67a Requests involving experimental changes—procedures for limitation of issues.

(a) The purpose of this section is to provide a mechanism for the limiting of issues on which a trial-type hearing is required. It recognizes that in a proceeding properly designated as experimental under §3001.67, some issues will be appropriate for determination on the basis of a less formal type of presentation and counterpresentation. It is the policy of this section to identify these issues at the earliest possible time and to employ less formal procedures to resolve them where the interests of expedition will be served thereby.
